Guarantee for Cavalier King Charles Spaniel

All Cavaliers bred and/or sold by Cindy Coffman will be described as honestly as possible upon being evaluated by our Veterinarian.

We give a two year guarantee against congenital defects:

If in the first two years of age your puppy is found to have a congenital defect return the puppy to our kennel (at buyers expense) with the registration papers and a detailed letter of explanation from a licensed veterinarian, the dog will be replaced at no charge when puppies are available. All veterinarian expenses incurred to diagnose and/or repair the defect will be at the buyers expense unless we have approved in writing prior to treatment the cost of treatment.

All of our Cavaliers are accompanied by an accurate up to date medical history. All cavaliers are checked by our veterinarian prior to delivery or shipping and are guaranteed to be in good health at the time of departure from our kennel. If a puppy leaves for a new home prior to completion of his/her inoculations it is necessary for the purchaser to complete the scheduled series of inoculations on time in order to protect the puppy, and for the health guarantee to remain valid. Our veterinarian has provided your puppy with the puppy's first dose of Heartguard. It is necessary for you to consult your veterinarian concerning prevention of heart worms in your puppy at the location in

which you live.

Please consider that until your puppy has had his/her full scheduled inoculations the puppy is susceptible to certain illnesses, and therefore should be kept out of areas where contamination is questionable.

If you purchased a puppy from us to show it is understood that we can not guarantee that the puppy will champion out.

Puppy will also be micro-chipped and the buyer is responsible to turn in their paperwork to have the puppy registered with the national Home Again network. Puppy will also have its first dose of Frontline Plus. Please for the sake of your puppy, maintain the Heartworm and Frontline or similar treatment for their health and wellness and for the comfort of your family.

This contract is binding when signed by all parties and dated.

New Owner

Although we have no known problems with our breed lines, I encourage all new owners to keep me informed concerning the development of any Cavalier obtained from me. And of any problems that may develop during its lifetime.

I also ask that should you find at any time that you are unable to keep your Cavalier that you acquired from me that you advise me so that I can either take the dog back or give assistance in finding it a new home.
